

TAU's Renewable Energy Centre & The Porter School of Environmental Studies are pleased to invite you to

SPECIAL SEMINAR:

# FROM WASTE TO ENERGY

Date: October 12, 2015

Taking place at: The Capsule Building, The Porter School of Environmental Studies, Tel Aviv University  
(The building is located east of TAU campus, just south of the Zoological garden and adjacent to the main entrance to the university from the Ayalon Highway, Gate 14).

## Program

09:00 - 09:30	Welcome and coffee
09:30 - 10:15	Guest Lecture - <b>Prof. Bruce Rittmann</b>
10:15 - 10:45	<b>Prof. Abraham Kribus</b> , TAU's Renewable Energy Centre
10:45 - 11:15	<b>Ronen Shechter</b> , Co-founder and CTO, Emefcy Ltd.
11:15 - 11:30	Coffee Break
11:30 - 12:10	Discussion Panel - <b>Dr. Alex Golberg</b> - Producing Energy from Waste - where to from here?

### Prof. Bruce Rittmann

Director of the Swette Center for Environmental Biotechnology, Arizona State University (ASU)  
An international leader in managing microbial communities, Rittmann's work is leading to new ways to clean up pollution, treat water and wastewater, capture renewable energy, and improve human health.

*"The concept of wastes or waste products is obsolete - the focus and the future are **used resource recovery**."* Dr. Bruce Rittmann
