## ❖ Education

- ❖ Bachelor of Science in Industrial Engineering and Management, Technion
- ❖ Master of Environmental Science and Management, UCSB
- ❖ Ph.D. in Environmental Science and Management, UCSB

## ❖ Main Expertise

- ❖ Corporate Environmental Management
- ❖ Interface of Industrial Ecology, Management, and Policy Disciplines

## גישה מחקרית

- Apply “Life Cycle” thinking: looking at both, supply and demand sides
  - Complement macro and micro perspectives on the same topic when possible
  - Provide insights for business and policy implications
  - Interdisciplinary collaboration is a must
-

## ❖ Study the sustainability (using life cycle thinking) consequences of changing consumption and production patterns using variety of tools and methods

- Mobility
- Closed-loop Supply chains, secondary markets, recycling and reuse
- Product-service systems

## ❖ Methods and Tools Development

- Use of Industrial Ecology tools in decisions making
- Performance Indexes
